

LYNX Paw Pass – AccessLYNX Fare Payment

1 Purchase an ADA or TD ticket for the correct fare as you board the vehicle. The fare will immediately become active and then expire in 30 minutes (it cannot be reactivated). “Pay As You Go” fares require a balance in the cash wallet to purchase.

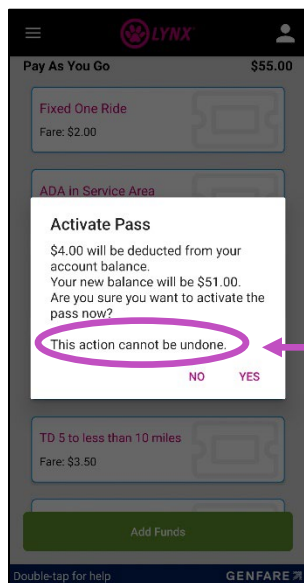

The cash wallet (for purchase of single rides) must have a balance to purchase “Pay as You Go”.

Click on the fare needed as you board the vehicle. *ADA and TD fares are only valid on AccessLYNX vehicles.*

Use “Add Funds” to add value to the cash wallet if needed. A credit card will be needed to complete the purchase.

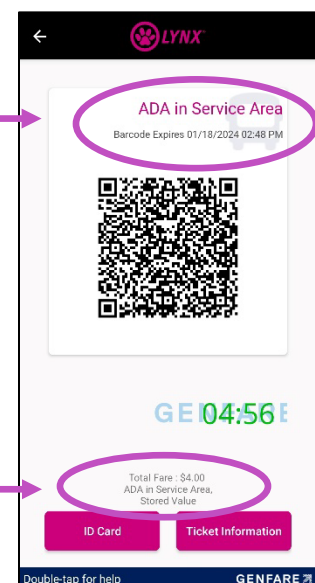

2 Activate the ADA or TD fare as you board the AccessLYNX vehicle. Show the activated ticket to the driver to show that the fare was paid. If a second fare is needed for a companion, purchase after showing the first fare to the driver.

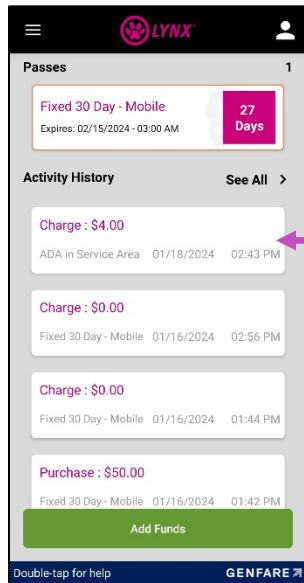

Purchase the ticket *as you board the vehicle*. ADA and TD fares are not valid on fixed route buses.

The fare will immediately become active and will expire in 30 minutes. The purchase cannot be undone or reactivated after it expires.

The AccessLYNX driver will verify the fare type and value paid.

3 Fare purchase is shown in “Activity History”.

Note that while an ADA or TD ticket cannot be reactivated after use, the purchase will be reflected in the “Activity History” at the bottom of the “My Passes” page.
